

BERTOLINI™

IMPRESSIONS SERIES

The **Impressions Series** features a unique design that makes it the only maintenance-free pew stacking church chair available. Completely manufactured in the USA, this flagship product from Bertolini is customizable and unmatched for quality and comfort. Highlights include our proprietary, dual-density foam cushion, contoured Flex-Fit seat, and award-winning Ergo-V backrest with sound dampening silhouette styling (with no exposed frame). These chairs make it easy to provide the best experience for your members.

PRODUCT FEATURES

- 1** Heavy-duty 16 gauge cold-rolled steel frame with integrated torsion bar supports 1,000 lbs (454 kg)
- 2** Zero Maintenance design with Fit-Tight fastening system and BosScrew technology
- 3** Flex-Fit blow molded seat offers rock-solid durability
- 4** Proprietary Ergo-V back design provides ergonomic support
- 5** Unmatched comfort with rolled foam seat
- 6** Dual-density foam cushions ensure you won't "bottom out" even when seated for extended periods
- 7** Self-leveling rocker glides are noncorrosive and ribbed to eliminate swivel-glide failure
- 8** Non-wearing, commercial-grade upholstery backed by our rock-solid warranty

STANDARD FABRIC OPTIONS

(See bertolinidirect.com for a wide variety of fabric options)

STANDARD FRAME OPTIONS

DESIGNER FRAME OPTIONS

BERTOLINI MODULAR SYSTEM
All Bertolini models, including arm chairs, interlock with each other to provide mix and match modular flexibility.

LIMITED
LIFETIME WARRANTY

FULLY UPHOLSTERED OUTER BACK

The fully upholstered back provides superior comfort, durability, and sound absorption.

FABRIC

Choose from more than 50 standard fabrics and hundreds of designer fabrics with C.O.M. (Customer's Own Material) option available upon approval (allow 0.8 to 1.1 yards of standard width fabric depending on the model).

STRONGEST FRAME

The 16-gauge bar system features 1010 cold-rolled carbon steel with integrated torsion that provides extra strength—all made in the USA!

FINISH

The ultra-durable powder-coat is electrostatically applied and baked at over 400°, and then saltwater tested for more than 800 hours.

ERGO-V ERGONOMIC BACK FOUNDATION

The multi-contoured V-shape design supports the lower back and cradles the upper shoulders.

ZERO-MAINTENANCE DESIGN

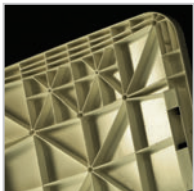

Zero maintenance means screws never fall out, and you will not have to replace parts—ever.

EXCLUSIVE DUAL-DENSITY FOAM

Enjoy all-day comfort and resiliency for the life of the chair with the commercial-grade, dual-density virgin foam seat. *(For additional foam options for this model, visit bertolinidirect.com)*

STACK BUTTONS

Protect your investment with extra-wide buttons for efficient stacking.

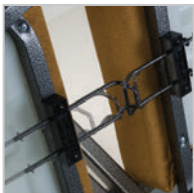

ERGO-V BACK DESIGN

The proprietary Ergo-V Support System provides ergonomic comfort and more durability than a plywood foundation.

EVERFLEX BACK OPTION

The million-cycle EverFlex composite spring system offers enhanced comfort to an already comfortable chair by allowing the entire back to flex and feel like your favorite recliner.

RETRACTABLE GANGING INTERLOCKS

The retractable ganging interlocks easily mount under your chair for linking the chairs into rows.

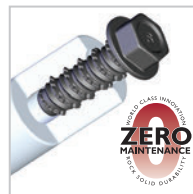

RADIUS GANGING

The radius interlocks allow enough space to form a gentle curve. Available at no additional charge.

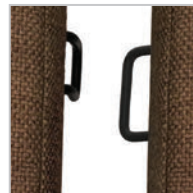

FLEX-FIT BLOW-MOLD SEAT

The contoured S-shape saddle seat foundation provides superior comfort and is assembled with Fit-Tight fasteners.

BOS-SCREW FASTENERS

The new Fit-Tight fastening system with BosScrew means screws tighten over time and NEVER fall out.

STANDARD GANGING

The straight interlocks hold chairs tightly together. Available at no extra charge.

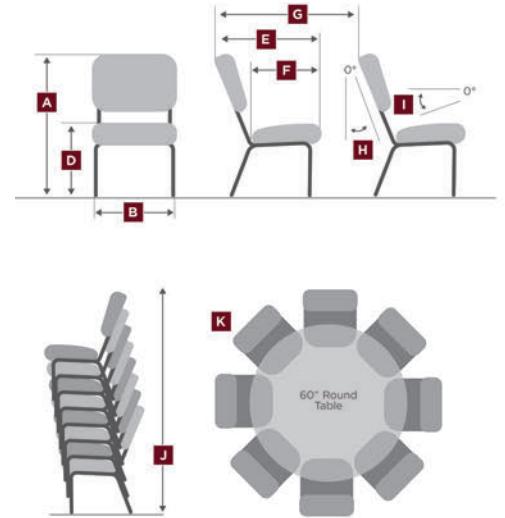

BOOTED ROCKER GLIDES

The noncorrosive ribbed and booted self-leveling rocker glides which eliminate swivel-glide failure.
