

BERTOLINI®

Chair Leg Glides

Overview

Protect your floors and keep your space quiet with Bertolini chair leg glides.

We make these black replacement glides from durable polypropylene, the same material used on our factory-installed glides. They create a smooth surface between the chair and the floor, helping reduce noise disruptions during movement. Glides prevent scratches and scuffs on hardwood, tile, and other surfaces.

Over time, glides can wear down, especially when chairs are moved frequently or used on rough flooring. Replacing worn glides helps maintain chair stability and protects your flooring investment.

For Bertolini chairs, these replacement glides ensure a consistent fit and reliable performance.

If you need replacements, contact your sales representative to order new Chair Leg Glides.

Note: This accessory is designed for use with Bertolini chairs. Compatibility with chairs from other manufacturers is not guaranteed. Use with non-specified chairs is at the buyer's own risk. If you have existing Bertolini chairs, contact customer service to confirm fit.
