

BERTOLINI®

Heavy Duty 5-Wheel Chair Dolly

Top Benefits

- **Easy to Steer:** It features 3 steerable and 2 fixed casters for smooth steering.
- **Ultra-Durable:** It will last for years thanks to a sturdy, heavy duty steel frame.
- **Rust Resistant:** A smooth powdered coated finish protects the metal from rust.
- **Made in the USA:** All carts are built to the highest quality standards in the USA.

Overview

This heavy-duty chair dolly will help you move stacks of Bertolini chairs with ease. Simply slide the front of the dolly underneath a stack of chairs and then lean the dolly back. We've engineered the cart to require a minimum of strength to move it, protecting your team from back strain.

You can move a stack of 8 standard church chairs or 6 armchairs with this chair dolly. It's easy to maneuver and it provides a quick and convenient way to haul and store chairs without causing safety hazards or damaging the chairs.

All Bertolini dollies are manufactured in the USA, which means high quality construction and quick delivery. The steel frame is under warranty for 12 years, and the plastic protective pieces and casters are warranted for 1 year.

Features

- Transports up to 8 chairs at a time
- Precision steering with heavy duty casters
- Durable casters roll smoothly for easy use
- Backed by a rock-solid warranty
- Industrial grade, welded steel frame
- Compatible with all Bertolini chairs, including chairs with bookracks
