

BERTOLINI®

Heavy Duty 5-Wheel Chair Dolly

Top Benefits

- **Easy to Steer:** It features 3 steerable and 2 fixed casters for smooth steering.
- **Ultra-Durable:** It will last for years thanks to a sturdy, heavy duty steel frame.
- **Rust Resistant:** A smooth powdered coated finish protects the metal from rust.
- **Made in the USA:** All carts are built to the highest quality standards in the USA.

Overview

This heavy-duty chair dolly helps you move stacks of Bertolini chairs easily. Simply slide the front of the dolly underneath a stack of chairs and then lean the dolly back. We've engineered the cart to require minimal strength to operate it, protecting your team from back strain.

You can move a stack of eight standard church chairs or six armchairs with this chair dolly/cart. Maneuver it easily as a quick and convenient way to haul and store chairs without causing safety hazards or damaging the chairs.

We manufacture all Bertolini dollies in the USA, which ensures high quality construction and quick delivery. The steel frame is under warranty for 12 years, and the plastic protective pieces and casters are warrantied for one year.

Features

- Transports up to 8 chairs at a time
- Industrial grade, welded steel frame
- Precision steering with heavy duty casters
- Compatible with all Bertolini chairs, including chairs with bookracks
- Durable casters roll smoothly for easy use
- Replaceable casters
- Backed by a rock-solid warranty
